April 13, 2016

The Honorable Susan Talamantes Eggman  
California State Assembly  
State Capitol, Room 3173  
Sacramento, California 95814

**Re: AB 1713 (Eggman) Sacramento-San Joaquin Delta - SUPPORT**

Dear Assemblymember Eggman:

Our groups are pleased to strongly support Assembly Bill 1713 which prohibits the construction of the peripheral canal, twin tunnels, or other isolated conveyance project, to divert water directly from the Sacramento River to the State and Federal pumping facilities in the south Delta unless expressly authorized by an initiative approved by California voters. The bill also requires the Legislative Analyst's Office to complete an economic feasibility analysis prior to a vote.

As a controversial multi-billion dollar infrastructure project, the permitting process for the twin tunnels should be transparent. Accordingly, ultimate approval should rest with the ratepayers and taxpayers who may be required to pay for the project. In particular, the people most impacted by the twin tunnels project deserve the right to vote to approve or disapprove this project, which will do irreparable harm to the Delta and upstream tributaries to benefit one part of the state at the expense of another.

Our concern goes beyond whether the Delta tunnels will be built or not. There is a clear and undeniable connection between the tunnels and proposed upstream surface storage projects. For example, in its NODOS Highlights (May 2014), the California Department of Water Resources indicates that if the Delta tunnels are constructed, all water from the proposed Sites Reservoir allocated to maintain water quality in the Delta is sold to water contractors south of the Delta. This would be a disaster for the Delta ecosystem and its endangered fish species and for Delta farmers who depend on fresh water flowing through the estuary to irrigate their crops.

More than thirty years ago, voters had the opportunity to vote on peripheral canal and they should be given the same respect this time as well. For all of these reasons, we are pleased to support AB 1713. Thank you for your leadership and authorship of this legislation.

Sincerely,

Eric Wesselman
